MEMORANDUM FOR: AFRDR
Headquarters USAF

ATTENTION : Colonel James A. Barnett, AFOCE

SUBJECT : Waiver for Fence, North Base, Edwards
Air Force Base

1. The attached sketch depicts the expansion of facilities at North Base, Edwards Air Force Base. It is noted that the corner of the fence is 500 feet off the center line of the runway. Since this distance does not meet Air Force Regulation 86-8 it is requested that a waiver be granted to this regulation and that permission be given to erect subject fence.

2. This confirms discussions with [redacted] of my staff. I understand that you will advise the civil engineer at Edwards Air Force Base of this waiver, and your approval to proceed with the fencing work at the North Base activity.
